

Transaction Limits on a Password Card

The First Step

To find out the amount that you can use by signing with a password card, choose “**Session Information**” from the menu (it is located on the menu bar “Info”).

The screenshot shows the Danske Bankas website interface. On the left, a navigation menu is visible with the following items: Home, My Services, 2009.02.25 13:43:00, Info, Session Information, Contracts, Loans, Currency Buy/Sell Rates, Official Currency Rates, All Customers Accounts, Lietuvos Bankai, Messages, Messages Search, Accounts, Transactions, Debit orders, Securities, Life insurance and pension, Electronic services, and Settings. The main content area displays the 'Session Information' page, which includes session details and a table of user limits.

Transaction Limits on a Password Card

The Third Step

If at least one transaction that is subject to a limit and below the indicated applicable limit amount is signed in a day or a month, the remaining unused limit is displayed.

The example shows the remaining unused limit after a LTL 1000 transfer is made in Lithuania.

User limits			
	Debit limit per day	Debit limit per month	Not applied for operations
Entry of transfers	Unspecified	Unspecified	Unspecified
Signing of transfers	4,000.00 <u>3,000.00</u>	15,000.00 <u>14,000.00</u>	Fund transfer, Withdraw part amount from the time deposit account, Time deposit, Add principals to the time deposit account, Exchange
