

## Money Transfer within Lithuania via Danske eBank

To transfer money in litas to any bank in Lithuania, or in foreign currency to accounts in Danske Bank A/S Lithuania Branch, choose **Transactions / Transfer in Lithuania** and take the following steps:

- In the window **Transfer in Lithuania** the following fields are mandatory:
  - Account** – choose the account that will be debited with the transfer amount.
  - Amount** – enter an amount (in numbers) that you wish to transfer.
  - Name and Surname / Company Name** – specify who you want to transfer the money to, i.e. the name and surname of the recipient or the company name.
  - Account Number** – enter the number of the recipient’s account where the money will be credited. The money transfer can be executed only between accounts of the same currency.
- Click on the button **Show**.

- Make sure that all information in the window that opens is correct:
  - If you find some mistakes, click on the button **Back** and correct the information that was entered incorrectly;
  - If all information is correct, click on **Create and Sign**.

- Confirm by clicking **OK** in the new window.

- Sign the money transfer transaction that you have just created by entering a password from the password card or password generator and click on the button **Sign**.
